ASSOCIATION INCORPORATED • MARCH 2026**

FOCUS ON NSW 3

From the President

Welcome to 2026.

It's a tough time to be a firearm owner in NSW right now with both State and Federal legislation applied against us. As an association we have always been open and available to discuss legislative and regulatory reform and would have been open to the same in the aftermath of Bondi this time. Instead, the NSW Government has chosen to entirely ignore my requests for answers on how we ended up where we have. On the date of writing this article, I am unsuccessful in eliciting any form of response from the Premier or the Minister for Police on how the items included in the bill were influenced. I will continue to seek answers from them; in the meantime, we expect ongoing constructive input with the NSW Firearms Registry to hopefully make sense of the changes as they come into force.

At every major step of the way I have written to club secretaries so that updates could be circulated as often as possible. For those who may not have seen the letters they are printed later in this edition of the Focus. Also, for real-time updates on these matters, you can jump onto the New South Wales Amateur Pistol Association Inc. Facebook page where I publish these types of communications as well.

State Legislation

The only major change which took immediate effect is removing NCAT as an appeals body for firearm related matters. This will be replaced by an internal review board of some sort for which we are yet to receive any details.

No other major changes have yet been enacted. Changes which have been passed but **NOT yet come into effect** include:

- A 10-firearm restriction on us as sporting shooters. The total tally includes all your firearms regardless of type and caliber or whether they are pistols, rifles or shotguns. This will be tied into the federal changes which I will discuss further. Firearms Registry will not be deciding any PTAs if you already hold 10 or more firearms. There are many family members applying for their licences to compensate for the new limits which are going to significantly bog down the FAR assessment teams. We've not yet been told whether FAR will be appropriately resourced to handle the huge increase in applications.
- Unlicensed shooting will no longer be allowed (the P650 system). It has been indicated to us that another robust system will replace it, but we don't yet know what that will be. For now, you can continue using P650s but keep in mind those who are mid-way through training may need to start over if the new system comes into force.
- All licence holders must be citizens of Australia (or in some circumstances citizens of New Zealand). Those who are not citizens should seek a dealer they trust and be prepared to store their firearms until they can complete the citizenship process.

- All licence holders must be citizens of Australia (or in some circumstances citizens of New Zealand). Those who are not citizens should seek a dealer they trust and be prepared to store their firearms until they can complete the citizenship process.
- Renewals will be a maximum of 2 years (instead of 5 as it is now). If you have a licence that extends beyond the 2 years now, it will not be affected until your next renewal.

To be clear... these changes have not yet come into effect. We are part of a stakeholder group that will work with firearms registry to develop the regulations, guidelines and procedures for when each of these parts of the bill is proclaimed and brought into effect. At the budget estimates hearing just before I wrote this, FAR announced that they expect regulations to be completed by September. That will likely be when we see some of this legislation activated.

Federal Legislation

The federal amendments will most affect the importers of firearms rather than the end users. We had much more input into the shaping of the federal outcomes than we did with the State (which was zero) and were able to have sporting shooters catered for in most of the amendments.

The main change which, in my opinion, is the only one that was necessary is to apply the AUSCHECK process to licence applicants. This gives Firearms Registry access to information from ASIO to understand who may be unfit to hold a licence.

Other changes brought into effect moved specific firearm and accessory types to prohibited categories in the federal legislation, however sporting shooter exemptions are applied to those which should have generally no negative effect on individuals.

The national buyback is a hot topic and one I've heard a lot of rumors about. The buyback has not yet been decided, and we have been included in discussions on the buyback. Details will be shared when they are finalized but please know that both the NSWAPA and TPA are representing you at the table, noting that the federal government has no obligation to do what we ask and all we can do is put our case forward for fair process and reasonable compensation. If you are hearing anything about what the buyback will be, don't believe it as nothing has been decided yet. When details are agreed by the States, this will inform us how the 10-firearm limit in NSW is regulated and managed.

I and the NSWAPA need to remain as apolitical as possible. Every one of you will vote based on how we have been treated over the past few months. But I do want to address the hate directed towards Dan Repacholi. Most know that Dan has been a mate of mine since we shot together on ranges in our teens, and Dan was my predecessor as President of this association. I don't envy his position in any of this, but I want to assure everyone that Dan did everything he reasonably could to make sure the negative effects of the amendments were minimal to us. We spoke many times during the Christmas break, and he heard all my concerns. There was no advantage to Dan crossing the floor and making a public spectacle of himself... that would have likely ended up with us having much less of a voice in the parliament and still being where we are now, or worse. Dan did what he could to defend and represent us, and

I thank him for it. In contrast I had no meaningful discussion or response from any MP prior to the bill being passed by NSW or Federal Parliament. Some have made belated effort, but all questions remain shamefully unanswered by those in charge.

Something more positive

We are coming up on Nationals for the TPA matches in Yarra, followed by the ISSF Nationals in Brisbane. Best of luck to our State Team members! There are plenty of sanctioned competitions coming up as well including State Championships for Metallic Silhouette and Action Pistol, all while the weather is warm and daylight-saving hangs around. Thank you to all those clubs, competitors, team representatives and volunteers who are keeping our very busy competition circuit alive. Make sure you check the calendar!

Jeffrey has already kicked off a huge year of coaching at all levels and various corners of the state. The commitment and determination shown by Jeffrey and those assisting him is so encouraging and welcome distraction from the negative issues we are all facing. Congratulation to Allison and the Junior program for another successful junior camp which you can read about in this issue.

Thank you for everybody's support and we will keep you updated as things evolve.

Lee Scott

BOOK NOW

focus@nswapa.org.au

From the Editor

We have reached March which means that as the weather is starting to cool down, the competitions are just getting warmed up. So much action coming up that the rolling calendar is spread across 3 pages!

This edition is quite light as competitions have been quiet at the start of the year but that just means the next edition in June will be a bumper issue, so don't forget the dates written on the right! I have lately started receiving articles and submissions way after cutoff and it really holds up getting everything compiled and printed on time so please send the articles, competition write-ups, club info, 50s, advertisements etc by the closing dates at the latest. Note, you can send me your submissions any time during the quarter for the next Focus magazine at focus@nswapa.org.au and if you send them straight after competitions you won't get any details.

Closing dates for submissions and contributions for Future Focus editions:

- 1st June 2026
- 1st September 2026
- 1st December 2026
- 1st March 2027

From the NSWAPA Coaching Director

Service / WA1500 Training Workshop 2026

NSWAPA will be conducting a Service / WA1500 training workshop at Dubbo Pistol Club, on Saturday 27 th and Sunday 28 th June 2026.

This Service / WA1500 training workshop is open to all NSWAPA members of any grade.

Registration is compulsory, see the NSWAPA calendar for the rego form.

Topics and training

- Trigger sequencing.
- Holster draw.
- Sight acquisition, both dot and open sights.
- Using a timer for reaction times, Smart Watch and Shooting Apps.
- Movements, Body Positions, Transitions and Reloads.
- Indoor Training Drills.
- Strong/Weak Hand exercises.
- Plus more.

Live fire Sat and Sunday.

Camping is available at Dubbo PC.

Cost = No fee for registered participants.

Holster Accreditation

Holster Examiner renewal or New Holster Accreditation can be organised if requested, held only on Sunday 28 th June. This will only be conducted for candidates that clearly indicate this on their registration form. Pre-requisites are capitated to PA level, have shot 6 unrestricted service matches and have their own belts and holster.

Jeffrey Langlands

NSWAPA Coaching Director

statecoachingdirector@nswapa.org.au

From the NSWAPA Coaching Director

Since the last Focus article the following courses and training have been conducted:

- Junior Camp: 10th – 17th January 2026 at Cessnock PC
- NSWAPA Team & Squad workshop 2026: 24th and 25th January 2026 at SISC

The next sessions are:

- GOT: 14th and 15th March 2026 at Campbelltown Liverpool District PC
- Grass Roots Session: 21st March 2026 at Lightning Ridge Pistol Club
- Club Instructor Course: 22nd March 2026 at Lightning Ridge Pistol Club
- Club Instructor Course: 30th May 2026 at Hume Pistol Club
- Tri-State: 5th to 8th June 2026 at Diamond Valley, Victoria
- Grass Roots Session: 20th June 2026 at Coffs Harbour Pistol Club
- Club Instructor Course: 21st June 2026 at Coffs Harbour Pistol Club
- Service/WA1500 Workshop 2026: 27th and 28th June 2026 at Dubbo PC

Club Instructor

Does a club member or official need to hold a “Club Instructor” accreditation to present the NSWAPA P650 course for the introduction of potential new members?

No, any suitable fully licenced member that is authorised by the club or club official can conduct this training.

As a club you may wish to consider what would happen if something goes wrong, and the club finds itself answering questions about the training the authorised supervising member received for this trainer task, and how this member was authorised by a club official for this trainer task, etc.

The level 1 coach course content involves the shooting process, learning styles, resources, eyes, exercises, fault evaluation, etc.

Club Instructor accreditation is a separate PA/NCC accreditation specifically for people that are new to the sport, with a different accreditation card and number.

What content does the Club Instructor cover that the Level 1 coach does not –

- The formal NSWAPA P650 process and documents,
- NSWAPA Standard Shooting Rules, etc.
- Range Standing Orders,
- Firearms Registry fact sheets - safe storage, transportation, ammunition, etc
- These will be current (note some were updated Sept and Dec 2025).
- Dedicated PA “Club Instructor” PowerPoint presentation.
- NCC Club Instructors Course Booklet and Supplement – with the lessons separated for the methodical development of the new shooter.

Are you interested in Grass Roots and/or Club Instructor sessions

Grass Roots and Club Instructor information sheets are available so the details can be discussed by the clubs, contact myself or the NSWAPA if you are interested.

As an individual you might be interested in attending either of these sessions, although the host club members have the priority, sometimes there are spots available for members from other clubs to participate. If you are interested check the NSWAPA Rolling Calendar regularly, if spots become available the registration form will be on it.

See you at the range,

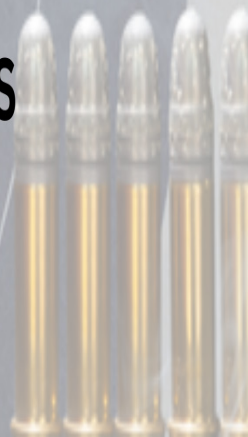

Jeffrey Langlands

NSWAPA Team & Squad Workshop 2026

The NSWAPA Team & Squad Workshop 2026 was once again held at the Sydney International Shooting Centre (SISC), continuing the tradition of utilising this excellent facility for our annual event.

Saturday Programme

The workshop commenced on Saturday with an insightful session led by Sports Psychologist Gabrielle Shore. Her presentation included a combination of discussions, formal presentations, and practical exercises, providing valuable strategies and guidance to participants.

Rapid-Fire Stage Training

Following the sport psychology session, David Moore delivered an in-depth exploration and focus on the Rapid-Fire Stage of 25m Pistol. His segment featured instructional videos and informative handouts, offering participants a thorough understanding of the techniques involved.

ISSF Rule Changes

There was a dedicated discussion regarding recent changes to ISSF rules, particularly those affecting match timing, with the reduction of precision stage in 25m from 5 minutes to 4 minutes, and grip requirements that will be effective after the Nationals. David Moore responded to these updates by modifying grips and performing repairs as needed throughout the weekend, ensuring all equipment met the new standards.

Coaching and Range Activities

Over both days, participants actively engaged in coaching and training sessions across the Finals, 10 metre, and 25 metre ranges. These activities were designed to enhance skills and provide focused practice under the supervision of experienced coaches, with on the line feedback.

Acknowledgements

Special thanks are extended to the eight coaches who contributed their expertise and support during the workshop. Their assistance was invaluable, particularly given the warm conditions experienced at SISC over the weekend.

Jeffrey Langlands

NSWAPA Coaching Director

From the Director of Junior Council

Junior Camp Report - Cessnock Pistol Club 2026

We didn't venture too far from home this year - just up the freeway to the **Cessnock Pistol Club**. This club is no stranger to Junior Camp, with its President, and current President of the NSW Amateur Pistol Association, **Lee Scott**, having previously served as Junior Director and having run these camps himself.

Lee very generously gave his time as **Judge for competition day**, supported by **Tony Drover**, who is currently undertaking judge training. On behalf of the Junior Council, we extend our sincere thanks to both Lee and Tony, as well as to Cessnock Pistol Club, for their outstanding support and welcoming spirit throughout the week.

The camp began with a serious challenge - **temperatures exceeding 40 degrees for the first two days**. Not exactly the ideal conditions to introduce new athletes to the sport, but the juniors rose to the occasion with impressive resilience. Hydration became a constant theme, reinforced so often that the athletes were soon repeating it back to us! Thankfully, the remainder of the week brought much more comfortable conditions. A few downpours and thunderstorms made an appearance, but as we all know, **a bit of weather has never stopped a shooter**.

This year's camp also reflected our growing reach, with **two juniors travelling from Coffs Harbour** and **one from Warwick, Queensland**, to attend. It is fantastic to see word spreading far and wide about the work being done here in NSW.

All new shooters were graded during the camp, with one athlete jumping straight into **C Grade**. We also recorded **three grade breaks**, including a standout performance by **Alec Tompkins**, who broke into **Master Grade for Air Pistol**, then backed it up with a **570 in 25m Pistol** - an outstanding achievement. Alec is a prime example of an athlete who listens, experiments, and applies what works best for him. The results truly speak for themselves. Every junior had moments to be proud of, and I am incredibly proud of them all.

A strong focus this year was placed on **sports psychology**, more so than in previous camps. While psychology has always been part of our program, it was intentionally elevated this year. I was very pleased with how positively this was received across the board. Mental skills are far more integral to the shooting process than many realise, and the earlier we normalise this aspect of training, the better equipped our athletes will be for long-term success.

We were also fortunate to have **Aurelie Gibson from Shooting Australia** join us on the Tuesday and Wednesday. Aurelie observed sessions, offered valuable assistance, and delivered a presentation on **visualisation and imagery**, along with additional tips on exercises and nutrition. Her contribution was greatly appreciated by both athletes and coaches.

This year also marked the first camp for **Harrison Reid** as a coach. Harrison completed his Level One coaching course with **Jeff Langlands at SISC** and has now aged out of the junior ranks. I encouraged him to become involved with junior coaching, and his dedication and keen observations on the range were impressive - particularly for

his first camp of this scale. Harrison, thank you for giving back to your sport. Watching your journey from brand-new shooter, to confident competitor, and now into coaching, has been truly special.

A heartfelt thank you also goes to **Dannielle Donohue** for her generous donation of **three Shooting Diaries**, awarded to the Most Improved athlete from each group:

Alexandor Batchelor (Wyong) – John & Harrison's Group

Tejnoor Deo (Coffs Harbour) – Jeff & Kerri's Group

Rebecca Chen (St Ives) – Allison's Group

As always, the camp simply would not function without the incredible support crew. A huge thank you to **Carol Higgins, Katie Higgins, and Jack Langlands**, our kitchen staff, who kept everyone fuelled with nutritious, healthy meals throughout the week—you truly are angels!

To **John Roache, Jeffrey Langlands, and Kerri Tom** - coaches, State Coaches, and SIA Officer—thank you. What more could I ask for in a camp team? This well-oiled machine continues to improve year after year. Many thanks, my friends—you are truly my chosen family.

P.S. A special thank you to **Jack Langlands** for the endless supply of fans. Every single person at camp benefited from your generosity. xx

Allison Doyle

Director of Junior Council

ADVERTISERS WANTED

From the NSW Referee Director

METALLIC SILHOUETTE

New South Wales now has three new Metallic Silhouette Judges in Training (Judges “C”) in Glen Anderson, Jason Anderson (apparently no relation) and Tim Davey.

As there have been no Metallic Silhouette Judges trained and qualified in NSW for quite some years, I held a meeting with Glen, Jason, Rob Boucher and David Dewsbury at the recent Silhouette event in Inverell to confirm what was expected from each of the parties during the training of the new Judges “C” and maximise the Candidate’s chances of being accredited as Judges “B” at the completion of their individual training.

This training could take 2 years to complete to ensure we continue to have knowledgeable and competent Judges on our Ranges. This time frame of course depends on the number of events they each attend as Trainee Judges, their attitude and their progress through the various stages of their training.

I will be monitoring the progress of Glen, Jason and Tim with interest through the reports David and Rob will be submitting to me after each event they attend as Trainees.

NEW ISSF RULES

There has been some angst surrounding new ISSF Rules circulating at present with those rules purportedly to come into effect on 1st January 2026.

These rules have not yet been adopted by Target Pistol Australia and, as I understand it, will be submitted to a TPA Executive Meeting to be held in April.

Any changes likely to affect events up to and including National Titles will not come into force until at least after that meeting and it is decided whether the rules are adopted in their entirety, or, whether they are adopted with some Australian Conditions variations.

NEW ACTION PISTOL RULES

Target Pistol Australia has now adopted the 2026 Civilian Marksmanship Program (CMP) Rule Book for Action Pistol effective immediately.

The new Rules can be downloaded from the Target Pistol Australia site under “Rules”.

Competitors are specifically reminded of Rule 4.1.3 - Safety Features, which states

“All factory standard safety features must be operable, except the M1911-type pistol grip safeties may be disabled”

The TPA Press release dated 16th February 2026 also states

“To provide clarity for competitors using M1911-style pistols, you may pin the grip safety and it is considered an acceptable method of disabling that specific safety feature in accordance with Rule 4.1.3.

All other factory standard safety features must remain fully operable as required under the rules.”

Disabling Grip safeties only relates to M1911 style of pistols used in Action Pistol and does not carry over to the Service Pistol Group of matches or WA1500.

Any pistol presented at Equipment Control for any of the Service Pistol or WA1500 matches with **any** safety feature disabled will not be passed by the Equipment Control Officer and will need to be rectified before that Pistol can be used in competition.

Wayne Uncomb
NSWAPA Referee Director

Girls On Target Weekend at CLDPC

We just wrapped up an incredible weekend! I want to extend my heartfelt thanks to the committee and members of Campbelltown Liverpool Districts Pistol Club for their outstanding support and care, which everyone truly appreciated.

This weekend introduced many new women to ISSF, from many different clubs around NSW, allowing them to enjoy learning the fundamentals of Air Pistol and 25m Pistol shooting. Some participants experienced these matches and match styled training for the very first time. I'm eager to see these women take part in future local competitions, knowing they'll have the full support of the Girls on Target community behind them.

Our "riff raff" crew also worked diligently on developing their skills and techniques, making small adjustments to refine their shot process, aiming to score higher through achieving tighter groups to prepare for a busy competition schedule ahead.

Andrew prepared a delicious BBQ feast, while Sue and Charly coached Group 1 (with help from Christian), and Bob and I coached Group 2. It was inspiring to watch everyone's progress paired with plenty of laughter along the shooting line.

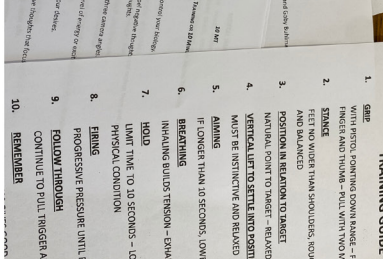

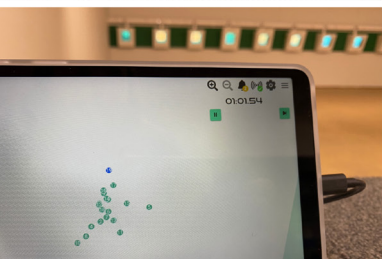

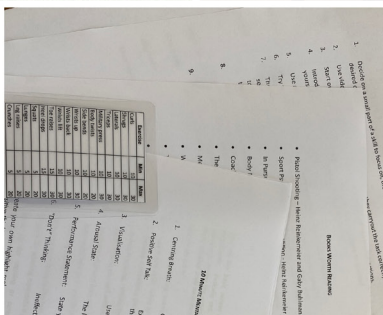

I am still finalising the location for the next Girls on Target weekend, and with the continued support and sponsorship of Girls on Target by AJ Freight Hub it will be yet another amazing event not to be missed!

In the meantime, ladies, if you're not already added to our Facebook page, message me on Facebook to be added or email me at dannielledonohue@gmail.com. Clothing order forms will be available on the page shortly.

Can't wait to see you at the range!

Cancer Council
Australia's Biggest
Morning Tea

Please donate to my morning tea

Campbelltown Liverpool District Pistol Club is again combining their May CMPC competition with the Cancer Councils Biggest Morning Tea.

Last year CLDPC raised \$1600 for the event and plan to increase on that this year.

The May CMPC 50M and Standard Pistol Championships on May 16th/17th is also a sanctioned comp!

AND again, all entry fees, canteen and raffle sales will be donated to Biggest Morning Tea!

**So even if you can't get along and compete here is the QR code to take you to the CLDPC page.
Support a great cause and get along to a great competition.**

Entry forms on NSWAPA website and the CLDPC website.

Please donate to my morning tea

Raise a cuppa to a cancer free future.

**First international senior competition,
first senior final and a junior silver**

Competition News

The Major Peter Badcoe VC memorial

The Major Peter Badcoe VC memorial shoot was once again run on Sunday 15th Feb at Campbelltown Liverpool District Pistol Club

This event has been running since 1969 and is the longest running such event on the NSWAPA and PA calendar This year as usual it attracted teams from around the state.

This year it was won by the team from Tuggerah Lakes Memorial Pistol Club .

The TLMPC team are here with this years trophy and one from the last time they won the same event in 2006

Potter
FIREARMS

Lisa Bossley shot her first every precision possible, at the club scheduled match, at Ulladulla Pistol Club on 28th January 2026. Lisa has come a long way in a relatively short time in the sport, initially shooting with two hands, and then transitioning to shooting one handed. Now she is competing away in P2 and just thoroughly immersing herself in the sport and enjoying it immensely.

Stephen Ramirez achieved 2x 50's at the Badcoe Cup. One was his first precision series, and the second was the last precision series

Update on firearms legislation changes

Dear Club Secretary

It's unfortunate that I am sending this to you on Christmas Eve.

The Labor and Liberal parties have held hands in parliament to pass the most egregious and unnecessary attack on legitimate firearms owners in NSW. The fake urgency and complete lack of consultation will leave a long-lasting bad taste in our mouths, and we should remember that at the next election. Any representations provided to local members appears to have fallen on deaf ears and the petitions have been entirely ignored. The bill has now passed both houses and will just go through the formalities of ascension, I assume some time today.

Summary of the changes in the bill:

1. The omission of section 6B of the Firearms act which ends the ability to use a firearm unlicensed (the P650 process).
2. Various changes to certain types of long arms and the category to which they belong, including magazine capacities and ammunition sources.
3. Creation of Section 8A which imposes a **10-firearm** limit on sporting shooters (regardless of type or category), unless otherwise approved by the Commissioner to hold more. Collectors and dealers have no limit applied.
4. Changes to deceased estates including the requirement for firearm owners to nominate a person to take ownership of their firearms in the event of their death.
5. Requirements to be a citizen to hold a firearms licence. This extends to NZ citizens and permanent residents who have genuine reasons.
6. All licence holders must be a member of a club.
7. Slashing the term of a firearms licence from 5 years to 2 years.
8. Removal of the ability to have NCAT review decisions of FAR.

The full contents of the bill are available online if you wish to read the finer details.
<https://www.parliament.nsw.gov.au/bill/files/18853/Second%20Print.pdf>

As there has been zero consultation from any member of the government with us, all the questions we have posed have gone unanswered. I know you have a lot to ask and sadly I can't answer them at this time. The most time critical one I can see at this point is when the P650 process is being killed off and when I know that answer I will be sure to communicate that to you as soon as possible. I have huge concerns for the massively increased bureaucracy introduced by this bill and at this point it's fair to assume that FAR will remain painfully under resourced and our applications will take exponentially higher times to be seen to. There will be a huge influx of requests regarding the number of firearms people currently hold and want to continue holding and FAR are not resourced to handle that.

I will keep working over Christmas and New Year to try and understand the incredible burden this Government has now imposed on our clubs and members. If the consultative committees continue into 2026, the NSWAPA will maintain its attendance to ensure whatever input we may finally be allowed to have is heard.

We are not the terrorists; we should not be treated as scapegoats for the failings of law enforcement who allowed terrorists to be armed. The current framework was poorly enforced, so there isn't much hope that this needlessly harsher one will also be enforced properly.

Please have a safe Christmas and New Year break and look after yourselves and each other.

Kind regards

A handwritten signature in blue ink, appearing to read 'Lee Scott', with a stylized flourish at the end.

Commencement of consultation on firearms law changes

Dear Member,

I hope you had a safe and prosperous Christmas and New Year.

You may not be aware that the NSWAPA has been attending a Consultative Council between shooting peak bodies and the NSW Firearms Registry since 2021. Up until the end of 2025, this was a much appreciated and highly successful forum where regulation and process change was discussed between the Government and us as a peak body. We have had many constructive and successful interventions when it comes to regulatory reform. Sadly, as you are all aware, this came to a disgraceful end when the Government skipped all consultation to ram through unnecessary legislative changes which, at face value, negatively impact on us all.

The first meeting of the Consultative Council has been called for 8 January 2026 and the NSWAPA will be eagerly attending that meeting to ask every question to completely understand how the changes to the legislation and subsequent changes in FAR process affect our members and our sport.

We have so many questions including... what guidelines will be used for exceptions to the number of firearms people can own? We will ask about Olympic, world and national representation. We will ask about citizenship. We will ask about the P650 process and what is going to replace it. We will ask to what magnitude the resources at FAR will be magnified to deal with the enormous number of applications coming their way and we will ask what support we and our secretaries are going to receive to adapt to the new changes. Most importantly we will ask WHEN. When will these changes take place and what accommodation will be arranged to support those who need time to attain compliance. We may not get every answer (or any answer?) in this session, but we will persist.

We know this is all very unfair. But as we get answers, they will be communicated to you, and we will support all of you as best we can.

If you haven't already, please continue to sign the e-petitions in the NSW Parliament and respectfully contact your state MP. Even though the bill has passed, it is still important to follow these steps through.

Kind regards

Lee Scott

Dear Club Secretary

Please Forward to all Members

Re: Information session Firearms Registry Consultative Council announcement.

The NSWAPA attended an information session yesterday with Senior Police and the head of the NSW Firearms Registry with representatives from most shooting peak bodies and gun control groups.

The following document is to provide all the information that is currently available. Please reserve contacting the office for urgent and matters unrelated to these law changes this is all the information we have at the present time.

The Assistant Commissioner made it very clear that the Consultative Council will have input into the proposed revised Regulations that will take into account changes brought about by the legislation that was passed by both houses of NSW Parliament. The Council has absolutely no power to reject any of the legislation that has been passed by Parliament.

Proclamation Date

Nothing changes in any aspect of the way our sport operates until the laws are proclaimed and a date given for the implementation of the changes. No-one knows what the proclamation dates will be, and it will be rolled out as policy is developed, not all at once on one date.

Buy Back

There is no information about a buy back. There is a great deal of speculation about a buy back and what happened in Western Australia with people being ripped off by the WA Government. We were informed that the NSW Government does not have to pay people for a buy back, but there is an obligation on the federal government. The details will be announced in the future. A sarcastic question was put to FAR by another peak body that people will claim their guns have been “stolen” and police said they will be considering those situations.

Club Firearms

There are no changes to the numbers of firearms that a club can have. If a member of the club has the club's firearms on their personal license, we strongly recommend transferring those firearms to the club licence ASAP.

P650

The P650 as we know it will be finished. They understand the P650 is a major component of people transitioning into the sport and will probably be replaced with an electronic version through "Gun Safe". It is essential for people to be able to do training courses. We will keep a very close eye on this. In an immediate sense there is no legal need to stop current P650 protocols.

Suspension of PTAs

PTAs have been suspended for about a week but will be switched back on very soon, but only for those who are Members of clubs and have under 10 firearms. For elite shooters and those with a genuine need for more than 10 firearms, there will be a way to apply for more through a Commissioners Permit, but this will probably come a bit later when the details can be worked out.

No PTAs will be issued to anyone who has been suspected of being or is living with a 'terrorist'.

Australian Citizens

They don't know how they will handle long term residents that are willing to transition to full citizenship, but it appears there may be some flexibility in how people are treated. But no definite information yet.

A and B Licenses

Must be a member of a club or a primary producer as determined by the ATO.

Licenses

Maximum term for licenses will be reduced to 2 years. For people who currently hold longer term licenses, your current license is valid until it expires and then you will renew onto a maximum 2 year license.

Biathlon

Biathlon will not be affected by the ban on straight pull actions.

NCAT

There will be no NCAT reviews on licensing matters. The internal review process will be bolstered, possibly with some external personnel, but nothing definite as yet.

Ranges

Gunsafe (the online portal where PTAs and Licence applications are handled) will be extended to cover ranges as well. No further details on this yet.

Communication

When FAR shut down PTAs they put notifications on Facebook and their website, there were no notifications sent to peak bodies. They have now stated that they will now notify peak bodies so that the general memberships can be notified.

We know people are frustrated, but Lee and I have been doing everything we can over the break period to get as much information as possible, there just isn't much of it around yet. Please refrain from taking your frustrations out on Firearms Registry staff. They are in the dark as much as we are and are assisting us as best they can.

Kind regards

A handwritten signature in dark ink, appearing to read 'B A Cheers', written in a cursive style.

Update on Federal Legislation changes and what it means for us

Dear members,

It has been a little while since I last made contact, but there has been a lot going on and a lot of correspondence being generated to try and get answers from both federal and state parliaments.

The NSWAPA and Target Pistol Australia generated a submission to the Senate committee to provide feedback and concerns on the exposure draft of the federal bill just passed through parliament, despite only having about 24hrs to interrogate the bill and understand its impacts. The process was almost identical to what happened in the NSW parliament whereby we provided a submission and then the bill was rapidly passed anyway, likely well before all submissions could have been properly considered. Remember that the federal bill relates almost entirely to functions around importation, background checks and citizenship (plus supply for the buyback).

More positively, yesterday we were given some hope as I received a call from Dan Repacholi who had asked the Minister for Immigration to hold a meeting with shooting stakeholders, including the NSWAPA and Target Pistol Australia.

On the Government side there was Minister Burke, Minister McBain and Dan Repacholi MP, while stakeholder representatives included the NSWAPA, TPA, SSAA, SIFA, Deer Hunters, Farmers Federation and many more. Discussions were respectful and answers provided were direct and relevant. From that meeting we share the following:

1. The commencement date of much of the bill is from today (22 January 2026) with the parts relating to 3D printing offences coming into effect after 28 days.
2. We have been given assurances that **speed loaders will continue to be available** for sporting pistol shooters.
3. We have been given assurances that **reloading equipment and accessories will continue to be available** to sporting pistol shooters.
4. Parts of the bill relating to **clothing and shooting vests were removed from the bill**.
5. We have been given assurances that **manuals and literature relating to legally owned firearms will continue to be available** to sporting pistol shooters.
6. There are no implications for international competitors attending national and world level championships in Australia.
7. The parameters of the buyback will not be decided until after the next national cabinet meeting. The bill just made supply of funds available for this purpose.

Supported by NSW Office of Sport

8. Resources for the various federal departments involved will be expanded to allow for the increased bureaucracy to be completed in a timely manner.
9. Application for firearms licences and importations will be subject to AUSCHECK, a process which will include flags from ASIO and other intelligence sources.

Some of these assurances from the Minister and his staff will be a great relief for most and time will tell if that is the ultimate result.

Dan Repacholi has been instrumental in making sure that we as sporting shooters have been considered at every stage of the bill. It has evolved greatly from the initial exposure to what was finally passed and I greatly appreciate him standing up for us and representing pistol shooters in his deliberations.

Thank you to Noel Harrod and Target Pistol Australia for supporting us by putting their own submission into the Senate committee and for accompanying me in the meeting with the Minister. We have stood together as peak sporting organisations to impart as much information and positive influence as we possibly can.

There will be a lot more questions generated over the next little while as things move at both a state and federal level. Your patience is greatly appreciated, and Brian and I will continue to look for as much information as we can and get it out to you as we find it.

ADVERTISEMENT TERMS AND CONDITIONS

1. On Focus NSW (FOCUS) publishes all advertisements/images/text on the understanding they have been supplied free from any violation or infringement of law. The Advertiser indemnifies and agrees to keep NSWAPA free from all liability, claims, procedures, losses and expenses arising from, but not limited to, slander of title, copyright and/or trademark infringement, defamation, violation to the right of publicity and/or privacy, or any breach of the Trade Practices Act 1974.
2. Advertising artwork must be supplied as per FOCUS's technical specifications outlined above. FOCUS may alter any supplied advertising that does not comply with artwork specifications in order to make it fit within the allocated advertising space or to meet quality standards. FOCUS will not accept any responsibility for these changes if not signed off by the Advertiser.
3. FOCUS publishes all images on the understanding that the Advertiser holds copyright or has sought permission for usage from the photographer/illustrator and has provided any necessary credits.
4. FOCUS will not accept any responsibility for the quality of reproduction of the advertising where FOCUS's technical specifications have not been met.
5. Advertisers may not make any changes to their advertising material once they have approved their advertisement proof, unless agreed by FOCUS.
6. If advertising components or finished artwork are not received by the material deadline, FOCUS may insert previously submitted advertising in its place. Where previous advertising does not exist, FOCUS may omit the Advertiser's advertisement all together.
7. FOCUS is not liable for the failure to publish any advertising content because of, but not limited to, strikes, accidents, terrorism, acts of nature and any event outside FOCUS's control.
8. FOCUS accepts no responsibility for any errors in amendments made by FOCUS to advertising supplied by the Advertiser.
9. FOCUS reserves the right to delay the publication date and amend closing dates for bookings and the supply of artwork, for any reason and at any time.
10. FOCUS reserves the right to make enquiries relating to the Advertiser, its company, director/s and/or related entities, in accordance with the Privacy Act 1988.
11. Any additional promotion of the Advertiser is at the discretion of FOCUS. There is no guarantee of the use of any additional images (whether supplied by the Advertiser or photographed by FOCUS) or any additional editorial supplied to FOCUS.
